

## Too Much Woman

a-ha you look so hot  
m-hm standing at the bar  
I-I wanna talk to you  
but I don't get far  
there are then other men  
bu-ut I can't resist  
your gravitational force

o-one hot summer night  
I-I was the lucky one  
shivered when we touched  
tomorrow she'll be gone  
we walked at the sea  
we rocked all through the night  
'til I asked her to be my bright

you are  
too much woman  
too much woman for one man  
too much woman  
too much woman for one man

o-ho-ho I can tell you brother  
the lesson I've learnt now  
you may own a sportscar  
be the biggest man in town  
when you love a woman  
and she's really hot an' wild  
you can love her, man  
but can't treat her like a child

so please girl reconsider  
come back into my arms  
so in lonely cold nights  
I will keep you warm  
listen to me baby  
I hope there'll be a day  
when you will come to stay

you are  
too much woman  
too much woman for one man  
too much woman  
too much woman for one man
