

sad days are over

we're gonna dance in a bar  
gonna dance in the hall  
dance on a car  
gonna dance at the wall  
we're gonna dance in the street all night  
cause evr' ything will be allright

lonesome nights are over  
forget all that grey days  
you've got rythm in your feet  
the streets are set ablaze  
got no chains on your leg  
come on close into my arm  
no law won't hold you back  
it won't do you no harm

we're gonna dance in the street all night  
we're gonna dance in the street all night  
we're gonna dance, gonna dance  
cause evr' ything will be allright

you've worked so hard  
while getting so less pay  
some sat save on their yachts  
soon comes the payment day

we're gonna dance in the street all night  
we're gonna dance in the street all night  
we're gonna dance, gonna dance  
cause evr' ything will be allright
